-  **Providers**
-  Practices

Put Practices above Providers

Do not provide Cred Manager access to create the provider user credentials:

Providers Section:

- Providers are not approved, its credentialing applications that are to be approved, provide a feature that upon clicking the provider, it should open the drop down of all applications sent to the payer for that particular provider shall open, then what is approved, what is pending shall be displayed under 'Status' signal.
- Make provider name clickable and it should do (see above)
- City Name on provider name can go away

Providers List

11 total providers

☐	PROVIDER NAME	NPI	SPECIALTY	PRACTICE	CITY	STATUS	ACTIONS
☐	Dr. Wunsch 9 Emergency Medicine	1000000009	Emergency Medicine	Dummy Medical Group 9	Ankundingshire	APPROVED	
☐	Dr. Marvin 10 Radiology	1000000010	Radiology	Dummy Medical Group 10	Bergeland	APPROVED	
☐	Dr. Roob 8 Obstetrics & Gynecology	1000000008	Obstetrics & Gynecology	Dummy Medical Group 8	North Isaac	APPROVED

CASE #

APP-2026-0010

In case of case #, lets add one more field to Practice generation box, **client code**, it should be 3 letters, that admin or credentialing manager can set, that client code will be used to generate the case # as mentioned above.

CASE #	PROVIDER	PAYER	STATUS	ASSIGNED TO	DELAY TYPE	AGING	NEXT FOLLOW-UP	TASKS	ACTIONS
APP-2026-0010	Dr. Wunsch 9 Dummy Medical Group 9	Tricare (Dummy)	Received-Under Review	Super Admin	Revantage 1	39d	07/18/2026	4 open	

What is the use the icons highlighted above? Find in 'Credentiating Tracker'.

ID ADHAR CARD : Lets remove this as a document requirement or name, there will be no India based doctors.

Email Center:

1. Cred Manager shall not have 'Mail Settings' option
2. Provide View by 'Inbox' and 'Sent Items'.
3. Make subject line 'clickable' to open the mail
4. Open the email in a full window

5. Segregate the email in sections by each email sent, currently, the view shows entire email thread without any proper break, user will not be able to make any sense out of the email
6. Filters are there to sort emails but by selecting 'Inbox' it shows nothing

This is an addition. I need the ability to generate the total credentialing report by practice, it can be given in reports section, in that, practices payer credentialing status and latest comment, shall be displayed, If there are multiple providers, it shall show by the provider. The report shall be emailed from the Cred App itself.
